• **2007** – The first year that the *Journal of Management Education* was ranked in the top 10 of the Social Sciences Citation Index.

[illegible]

10

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained after plating on the selective medium. The results are the mean of three independent experiments. Error bars represent standard deviation.

[illegible]

the first two cases, the authors have shown that the model can be used to predict the effect of changes in the input variables on the output variable. In the third case, the authors have shown that the model can be used to predict the effect of changes in the input variables on the output variable.

$\frac{1}{\sqrt{\pi}} \int_{-\infty}^{\infty} f(x) \delta(x-a) dx = f(a)$
